EXPERIENCE

Software Engineer Remote · May 2021 – Present
Evertec · PlacetoPay

- Engineer core backend services for PlacetoPay, a LATAM payment gateway processing **100M+ transactions a year**.
- Reduced technical debt and critical production bugs by championing **TDD** and rigorous code review.
- Optimized **Docker/AWS** deployment workflows (**CI/CD**), improving scalability during high-traffic events.
- Designed secure, documented **RESTful APIs** for Mobile teams and third-party financial institutions.
- Designed and led the internal **PHP Bootcamp**, training junior developers in Clean Code and SOLID.
- Work in **Agile/Scrum** with QA, Product and Mobile teams to deliver and maintain high-availability backend services.

Full Stack PHP Developer (Internship) Aguascalientes, MX · Jan 2020 – Sep 2020
Comisión Agua Potable Alcantarillado Saneamiento, Municipio de Jesús María

- Revamped the official public portal, growing web traffic by **70%** through UI/UX and SEO improvements.
- Built a custom Intranet/CMS from scratch with **Laravel and Vue.js** for internal staff.

Web Developer (Social Service) Aguascalientes, MX · Jan 2019 – Aug 2019
Instituto Tecnológico de Aguascalientes

- Led a student team through the full lifecycle of an innovation project, from requirements to MVP deployment.
- Implemented a serverless backend on Firebase with real-time data synchronization.
